SUBJECT INDEX, VOLUME 26

A

PAGE

A comparative SEM study of red rice and several commercial rice *(Oryza sativa)* varieties 619
A small plot technique for assessing control of submersed weeds . . 554
A survey of asymbiotic nitrogen fixation in the rhizosphere of weeds 148
Absorption and distribution of terbutryn and fluometuron by germinating seeds of cotton *(Gossypium hirsutum)* and snapbean *(Phaseolus vulgaris)* 378
Absorption and translocation of mefluidide by soybean *(Glycine max)*, common cocklebur *(Xanthium pensylvanicum)*, and giant foxtail *(Setaria faberi)* 434
Absorption, translocation, and metabolism of fluridone in selected crop species 252
Abutilon theophrasti response to bentazon 393
Acetanilide herbicide injury, protection of corn with R-25788 . . . 653
Acetanilide herbicides, response of peas and annual weeds 313
Acid scarification on scarlet morningglory seed germination 261
Action of EMD-IT 5914 on chloroplasts 292
Activated carbon for weed control in direct-seeded asparagus 284
Adjuvant terminology subcommittee report—adjuvant terminology guidelines 204
Adsorption, atrazine on soil as influenced by temperature, moisture content and electrolyte concentration 303
Agropyron repens control in blueberries 488
Agropyron repens control in blueberries and rhododendron 516
Agropyron repens, glyphosate activity on 41
Agropyron repens, quackgrass, control in established alfalfa with pronamide 193
Aldicarb and cycloate on growth of sugarbeets 161
Alfalfa, control of foxtail millet 637
Alfalfa, control of quackgrass with pronamide 193
Alfalfa, control of yellow nutsedge 399
Alfalfa establishment in sod seeding, use of glyphosate 163
Alfalfa, glyphosate activity on 41
Alfalfa, metabolism of propham 296
Alfalfa, repeated herbicide applications 151
Alfalfa seedling establishment, dinitroaniline herbicides on 123
Alfalfa, weed control 37
Antagonistic effect of atrazine and simazine on glyphosate activity 135
Antidote R-25788, corn protection from acetanilide herbicide injury with 653
Antidotes, herbicide, on barban 116
Arsenic levels in crops irrigated with water containing MSMA 370
Asparagus officinalis, weed control by herbicides and activated carbon 284
Asparagus, weed control by herbicides and activated carbon 284
Aspects of germination, emergence, and seed production of three *Ipomoea* taxa 245
Atrazine activity on yellow nutsedge 421
Atrazine adsorption on soil as influenced by temperature, moisture content and electroylte concentration 303
Atrazine and simazine on glyphosate activity 135
Atrazine metabolism in earthworms 331
Atrazine on soil colloids, hydrolysis of 46
Atrazine, plant competition for 94
Atrazine tolerance of range grasses 480
Augmenting the moth *(Bactra verutana)* in field plots for early-season suppression of purple nutsedge *(Cyperus rotundus)* 703
Avena fatua control with barban-aqueous nitrogen 344
Avena fatua control with difenzoquat 571
Avena fatua germination with sodium azide 323
Avena fatua, phytotoxic response to triallate and trifluralin 273
Avena sativa, dipropetryn and prometryn translocation in seedlings and excised leaves 358
Axyris amaranthoides, history in North America 82

B

Bacteria, effects on waterhyacinth 101
Bactra verutana and purple nutsedge interactions under temperature regimes 550
Bactra verutana, augmentation in suppression of purple nutsedge . 703
Barban-aqueous nitrogen combinations for wild oat *(Avena fatua)* control 344
Barban, herbicide antidotes 116
Barban phytotoxicity, temperature effect 132
Barban, wheat and barley response 226
Barley and wheat response to barban 226
Bentazon control of yellow nutsedge in Kentucky bluegrass 280
Bentazon, response of morningglory 459
Bentazon, response of velvetleaf 393
Bermudagrass, glyphosate treatments 523
Bermudagrass response to herbicide treatments 493
Beta spp., effect of cycloate and aldicarb on growth of 161
Beta vulgaris, metabolism of propham 296
Beta vulgaris, response to mixture of phenmedipham and desmedipham 1
Beta vulgaris response to sublethal rates of 2,4-D 629
Bifenox selectivity 76
Biochemical requirements for seed germination and shoot development of witchweed *(Striga asiatica)* 119
Biological control of musk thistle by *Rhinocyllus conicus* 188
Blueberries, highbush, terbacil phytotoxicity and quackgrass control 488
Blueberries, quackgrass control 516
Bluegrass, Kentucky, control of yellow nutsedge with bentazon, cyperquat, and perfluidone 280
Bluegrass, volunteer, control in seed fields of bluegrass 675
Brassica oleracea var. *capitata*, selectivity of nitrofen and oxyfluorfen 640
Bud development in excised roots of rush skeletonweed *(Chondrilla juncea)* 582
Butylate, rate of release from starch encapsulated formulations . . 679

C

^{14}C accumulation, effect of *Cyperus esculentus* tuber maturity . . 270
Cabbage, selectivity of nitrofen and oxyfluorfen 640
Calcium on glyphosate phytotoxicity 476
Calcium on soybean root fatty acid compositon 647
Callus cultures, napropamide inhibition on 711
Camphorweed, germination, growth, development, and control . . . 51
Canada thistle *(Cirsium arvense)* control in timothy *(Phleum pratense)* and red clover *(Trifolium pratense)* sward 215
Carduus nutans control by *Rhinocyllus conicus* in Missouri 188
Carduus thistle seed destruction by *Rhinocyllus conicus* 264
Carotenoid synthesis, inhibition by fluridone and norflurazon . . . 198
Charcoal protection of cotton from diuron 239
Chenopodium album, germination characteristics 255
Chenopodium album, triazine effects on chloroplasts 318
Chloramben metabolism in earthworms 331
Chlorophyll content, influence of fluridone 432
Chloroplast fragments, energy conservation by Hill reaction inhibitors 84

Chloroplast photooxidations with photosynthesis-inhibiting herbicides . . . 440
Chloroplasts, action of EMD-IT 5914 . . . 292
Chloroplasts of common lambsquarters, triazine effects . . . 318
Chondrilla juncea, bud development in excised roots . . . 582
Chromatography, thin-layer, separation of glyphosate and metabolites . . . 673
Cirsium arvense control in timothy and red clover sward . . . 215
Clover, red, canada thistle control in timothy and . . . 215
Clover, red, phytotoxicity of glyphosate . . . 32
Clover, red, weed control with EPTC and dinoseb . . . 497
Cocklebur, common, ^{14}C-mefluidide translocation . . . 382
Cocklebur, common, mefluidide absorption . . . 434
Comparative toxicity of several dinitroaniline herbicides . . . 72
Comparative triazine effects upon system II photochemistry in chloroplasts of two common lambsquarters (*Chenopodium album*) biotypes . . . 318
Competition, intraspecific, of Nigerian weed species . . . 713
Competition of four morningglory (*Ipomoea* spp.) species with cotton (*Gossypium hirsutum*) . . . 484
Competition of Pennsylvania smartweed with soybeans . . . 556
Competition, weeds in cucumbers . . . 626
Control of an oak (*Quercus*) complex with herbicide granules . . . 444
Control of camphorweed . . . 51
Control of dodder (*Cuscuta* spp.) with pronamide . . . 660
Control of foxtail millet (*Setaria italica*) in new seedings of alfalfa (*Medicago sativa*) with EPTC applied in subsurface lines . . . 637
Control of quackgrass 9(Agropyron repens) in highbush blueberries (*Vaccinium corymbosum*) and hybrid rhododendron (*Rhododendron* X) . . . 516
Control of submersed weeds, assessing by small plot technique . . . 554
Control of wild oat with barban-aqueous nitrogen . . . 344
Control of yellow nutsedge (*Cyperus esculentus*) and other weeds before summer planting of alfalfa (*Medicago sativa*) . . . 399
Convolvulus arvensis control in corn and sorghum . . . 665
Corn, control of field bindweed . . . 665
Corn, dipropetryn and prometryn translocation in seedlings and excised leaves . . . 358
Corn, EPTC metabolism . . . 157
Corn, herbicides persistence in soils . . . 108
Corn, influence of fluridone on chlorophyll content . . . 432
Corn protection from acetanilide herbicide injury with antidote R-25788 . . . 653
Corn, R-25788 on EPTC metabolism . . . 167
Cotton, charcoal protection from diuron . . . 239
Cotton, dinitrobenzamine herbicides evaluation . . . 16
Cotton germinating seeds, terbutryn and fluometuron absorption . 378
Cotton, glyphosate toxicity and translocation . . . 509
Cotton, morningglory competition with . . . 484
Crabgrass seeds, enzyme activity following hydration . . . 90
Crop and weed seed longevity in fresh water . . . 336
Cucumbers, pickling, weed interference . . . 626
Cucumis sativus, weed interference in . . . 626
Cuscuta control with pronamide . . . 660
Cycloate and aldicarb on growth of sugarbeets . . . 161
Cynodon dactylon, glyphosate treatments . . . 523
Cynodon dactylon response to herbicide treatments . . . 493
Cyperquat control of yellow nutsedge in Kentucky bluegrass . . . 280
Cyperus esculentus, atrazine activity on . . . 421
Cyperus esculentus control in Kentucky bluegrass with bentazon, cyperquat, and perfluidone . . . 280
Cyperus esculentus, control of before summer planting of alfalfa . . 399
Cyperus esculentus, light requirements . . . 10
Cyperus esculentus seasonal development . . . 614
Cyerpus esculentus tuber maturity, effect ^{14}C accumulation . . . 270
Cyperus rotundus and *Bactra verutana* interactions under temperature regimes . . . 550
Cyperus rotundus, glyphosate action in . . . 700
Cyperus rotundus, photoperiod effects on reproductive biology of . 539
Cyperus rotundus seasonal development . . . 614
Cyperus rotundus, suppression of in early season field plots, augmenting the moth *Bactra verutana* . . . 703
Cyperus rotundus, thiocarbamate herbicides on . . . 127

D

D-α-tocopherol acetate protection from 2,6-dinitroaniline growth inhibition in tobacco callus . . . 527
Dalapon and 2,4-D on weed seed production and dormancy . . . 543
Dates of glyphosate treatments on weeds and bermudagrass (*Cynodon dactylon*) . . . 523
Depth of burial, effects on germination of weed seeds . . . 4
Desmedipham and phenmedipham on sugarbeets . . . 1
Dicamba control of field bindweed in corn and sorghum . . . 665
Dicamba metabolism in earthworms . . . 331
Dicamba use and injury on soybeans (*Glycine max*) in South Dakota 471
Diclofop, selectivity and site of action in field performance . . . 352
Difenzoquat for wild oat (*Avena fatua*) control . . . 571
Differences in the phytotoxic response of wild oats (*Avena fatua*) to triallate and trifluralin . . . 273
Differential absorption and distribution as a basis for the selectivity of bifenox . . . 76
Differential varietal tolerance of peach (*Prunus persica*) seedlings to glyphosate . . . 374
Digitaria sanguinalis seeds, enzyme activity following hydration . . . 90
Diluent volume on glyphosate phytotoxicity . . . 476
Dinitroaniline herbicides, comparative toxicity of . . . 72
Dinitroaniline herbicides on alfalfa seedling establishment . . . 123
Dinitroaniline herbicides, photodecomposition . . . 153
Dinitroaniline herbicides, suppression of pea root rot . . . 609
Dinitroaniline persistence as affected by soil moisture . . . 465
Dinitroaniline suppression of root diseases and weeds in peas . . . 589
Dinitrobenzamine herbicides in cotton . . . 16
Dinitrophenol suppression of root diseases and weeds in peas . . . 589
Dinoseb control of weeds in birdsfoot trefoil and red clover . . . 497
Diphenylether herbicides on common purslane . . . 585
Dipropetryn and prometryn translocation in seedlings and excised leaves of oats and corn . . . 358
Directions for contributors to Weed Science . . . 206, 309
Diuron, charcoal protection of cotton . . . 239
Diuron metabolism in two sugarcane (*Saccharum officinarum*) cultivars . . . 642
Dodder control with pronamide . . . 660
Dormancy, weed seed, effect of 2,4-D and dalapon . . . 543
Dormancy, weed seed, effects of nitrate on . . . 594
Drift of glyphosate sprays applied with aerial and ground equipment . . . 597
Duration of burial, effects on germination of weed seeds . . . 4
2,4-D and dalapon on weed seed production and dormancy . . . 543
2,4-D control of field bindweed in corn and sorghum . . . 665
2,4-D, response of sugarbeets . . . 629
2,6-Dinitroaniline herbicides, growth inhibition in tobacco callus . 527

E

Earthworms, metabolism of atrazine, chloramben, and dicamba . . 331
Effect of calcium and nitrogen on soybean (*Glycine max*) root fatty acid composition and uptake of linuron . . . 647
Effect of cycloate and aldicarb alone and in combination on growth of three sugarbeet species (*Beta* spp.) . . . 161
Effect of diluent volume and calcium on glyphosate phytotoxicity 476
Effect of fall frost on the activity of glyphosate on alfalfa (*Medicago sativa*) and quackgrass (*Agropyron repens*) . . . 41
Effect of five thiocarbamate herbicides on purple nutsedge (*Cyperus rotundus*) . . . 127
Effect of herbicide antidotes on barban . . . 116
Effect of R-25788 on EPTC metabolism in corn (*Zea mays*) . . . 167
Effect of soil pH and tillage on persistence of simazine . . . 145
Effects of 2,4-D and dalapon on weed seed production and dormancy . . . 543
Effects of depth and duration of burial on the germination of ten annual weed seeds . . . 4

Effects of environment on the toxicity of glyphosate to johnsongrass *(Sorghum halepense)* and soybeans *(Glycine max)* 605
Effects of field applications of nitrate on weed seed germination and dormancy 594
Effects of fungi and bacteria on the decline of arthropod-damaged waterhyacinth *(Eichornia crassipes)* in Florida 101
Effects of glyphosate on transpiration 513
Effects of multiple mowing on western ironweed *(Vernonia baldwinii)* and gray goldenrod *(Solidago nemoralis)*. 190
Effects of repeated herbicide applications on alfalfa *(Medicago sativa)* 151
Effects of temperature and light variations on seed germination in sunflower *(Helianthus)* species 277
Effects of two diphenylether herbicides on common purslane *(Portulaca oleracea)* 585
Efficacy and rate of release of EPTC and butylate from starch encapsulated formulations under greenhouse conditions 679
Eichornia crassipes, arthropod-damaged, effects of fungi and bacteria on. 101
Electrical treatment, germination response of woody plant seeds. . 286
Eleocharis coloradoensis, germination of seed. 425
EMD-IT 5914 on chloroplasts. 292
Energy conservation, enhancement by Hill reaction inhibitors 84
Enhancement of chloroplast phototoxidations with photosynthesis-inhibiting herbicides and protection with NADH or NADPH . . 440
Enhancement of energy conservation by hill reaction inhibitors in isolated spinach *(Spinacia oleracea)* chloroplast fragments 84
Environment, effects on the toxicity of glyphosate to johnsongrass and soybeans 605
Enzyme activity in dormant and nondormant large crabgrass *(Digitaria sanguinalis)* seeds following hydration 90
Enzyme activities in prickly sida *(Sida spinosa)* seeds of different developmental stages 349
EPTC control of foxtail millet in alfalfa 637
EPTC control of weeds in birdsfoot trefoil and red clover. 497
EPTC metabolism in corn 157
EPTC metabolism in corn, effect of R-25788 167
EPTC, rate of release from starch encapsulated formulations 679
Equipment, aerial and ground, application of glyphosate 597
Establishment in Missouri of *Rbinocyllus conicus* for the biological control of musk thistle *(Carduus nutans)*. 188
Etiolated growth of range grasses for an indication of tolerance of atrazine. 480
Euphorbia heteropbylla germination 221
Evaluation of substituted dinitrobenzamine herbicides in cotton *(Gossypium hirsutum)* plantings 16

F

Fababeans, nitrofluorfen and oxyfluorfen metabolism. 389
Factors affecting the translocation of ^{14}C-mefluidide in soybeans *(Glycine max),* common cocklebur *(Xanthium pensylvanicum),* and johnsongrass *(Sorghum halepense)*. 382
Factors affecting toxicity and translocation of glyphosate in cotton *(Gossypium hirsutum)* 509
Factors influencing microbial degradation of ^{14}C-glyphosate to $^{14}CO_2$ in soil. 686
Fatty acid composition of soybean roots and uptake of linuron . . 647
Field bindweed *(Convolvulus arvensis)* control in corn *(Zea mays)* and sorghum *(Sorghum bicolor)* with dicamba and 2,4-D. 665
Field comparison of seven dinitroaniline herbicides for alfalfa *(Medicago sativa)* seedling establishment 123
Fluometuron and terbutryn absorption by germinating seeds of cotton and snapbean 378
Fluometuron residue, tolerance of soybeans and sorghum. 454
Fluridone absorption, translocation, and metabolism in crop species 252
Fluridone and norflurazon inhibition of carotenoid synthesis. . . . 198
Fluridone on chlorophyll content of wheat and corn. 432
Foxtail, giant, mefluidide absorption. 434
Foxtail, green, nitrofluorfen and oxyfluorfen metabolism. 389
Foxtail growth, influence of nitrogen fertility. 547
Foxtail growth simulation 691
Foxtail, yellow, biotype studies. 632
Frost, effect on glyphosate activity. 41
Fungi, effects on waterhyacinth. 101

G

Germination and viability of weed seeds after 2.5 years in a 50-year buried seed study 230
Germination, emergence, seed production of three *Ipomoea* taxa . 245
Germination, growth, development and control of camphorweed *(Heterotheca subaxillaris)* 51
Germination in common lambsquarters 255
Germination of common mullein 577
Germination of dormant wild oat seed with sodium azide. 323
Germination of seed of dwarf spikerush *(Eleocharis coloradoensis)* 425
Germination of weed seeds 4
Germination of wild poinsettia *(Euphorbia heteropbylla)* 221
Germination response of some woody plant seeds to electrical treatment 286
Germination, seed, in sunflower, temperature and light effects . . . 277
Germination, seed, of milk thistle. 395
Germination, weed seed, and viability in a buried seed study. 230
Germination, weed seed, effects of nitrate on. 594
Glycine max and sorghum tolerance to tetrafluron and fluometuron 533
Glycine max, ^{14}C-mefluidide translocation 382
Glycine max, dicamba injury on 471
Glycine max, effects of environment on glyphosate toxicity 605
Glycine max growth, interaction of metribuzin and trifluralin with soil type 327
Glycine max, herbicides persistence in soils 108
Glycine max, mefluidide absorption 434
Glycine max root fatty acid composition and uptake of linuron . . 647
Glycine max, smartweed interference 556
Glycine max-Sorghum bicolor rotation, weed control 362
Glycine max tolerance to fluometuron residue 454
Glyphosate activity, antagonistic effect of atrazine and simazine. . 135
Glyphosate activity on alfalfa and quackgrass. 41
Glyphosate and paraquat effects on weed seed germination and seedling emergence 249
Glyphosate (-^{14}C), microbial degradation to $^{14}CO_2$ in soil 686
Glyphosate drift applied with aerial and ground equipment. 597
Glyphosate, effects on transpiration 513
Glyphosate in sod seeding alfalfa establishment. 163
Glyphosate on purple nutsedge 700
Glyphosate phytotoxicity, effect of diluent volume and calcium on. 476
Glyphosate, phytotoxicity to Italian ryegrass and red clover 32
Glyphosate separation by thin-layer chromatography 673
Glyphosate tolerance of peach seedlings 374
Glyphosate toxicity and translocation in cotton 509
Glyphosate toxicity to johnsongrass and soybeans 605
Glyphosate treatments on weeds and bermudagrass 523
Goldenrod, gray, effects of multiple mowing 190
Gossypium hirsutum, charcoal protection from diuron 239
Gossypium hirsutum, dinitrobenzamine herbicides evaluation 16
Gossypium hirsutum germinating seeds, terbutryn and fluometuron absorption 378
Gossypium hirsutum, glyphosate toxicity and translocation. 509
Gossypium hirsutum, morningglory competition with 484
Granules, herbicide, control of an oak complex. 444
Grasses, range, tolerance to atrazine 480
Grassy weed control in turf 650
Growth inhibition in tobacco *(Nicotiana tabacum)* callus by 2,6-dinitroaniline herbicides and protection by D-α-tocopherol acetate . . 527

H

Helianthus, temperature and light on seed germination 277
Herbicide and surfactant interaction on single leaf cells 182
Herbicide antidotes, effects on barban 116

Herbicide, dinitroaniline, persistence as affected by soil moisture . 465
Herbicide granule control of an oak complex 444
Herbicide mixtures, joint action, and assessment 58
Herbicide, repeated applications on alfalfa. 151
Herbicide treatments in turf for grassy weed control. 650
Herbicide treatments on bermudagrass and zoysia 493
Herbicides and activated carbon for weed control in direct-seeded asparagus *(Asparagus officinalis)* 284
Herbicides applied after emergence, reaction on sainfoin seedlings . 175
Herbicides, for corn, sorghum, and soybeans, persistence in soils . . 108
Herbicides, persistence and movement in soil 20
Herbicides, soil-applied, temperature effect on phytotoxicity of . . 566
Heterotheca subaxillaris, germination, growth, development, and control 51
Hill reaction inhibitors 84
Hordeum vulgare and wheat response to barban 226
Hydrilla verticillata survival after removal from aquatic habitat. . . 502
Hydrolysis of atrazine on soil colloids 46

I

Influence of fluridone on chlorophyll content of wheat *(Triticum aestivum)* and corn *(Zea mays)* 432
Influence of light and temperature on the germination and seedbed ecology of common mullein *(Verbascum thapsus)* 577
Influence of nitrogen fertility on growth of foxtail *(Setaria)* taxa . 547
Influence of placement of charcoal on protection of cotton *(Gossypium hirsutum)* from diuron 239
Influence of temperature and acid scarification duration on scarlet morningglory *(Ipomoea coccinea)* seed germination 261
Inhibition of carotenoid synthesis by fluridone and norflurazon . . 198
Interaction of metribuzin and trifluralin with soil type on soybean *(Glycine max)* growth 327
Interaction of surfactant and herbicide treatments on single cells of leaves 188
Interactions between *Bactra verutana* and the development of purple nutsedge *(Cyperus rotundus)* grown under three temperature regimes 550
Intraspecific competition of Nigerian weed species. 713
Ipomoea coccinea, seed germination 261
Ipomoea, competition with cotton 484
Ipomoea, germination, emergence, seed production of three taxa . 245
Ipomoea spp. response to bentazon. 459
Ironweed, western, effects of multiple mowing 190
Irrigation, with water containing MSMA 370
Isopropalin, soil persistence 258

J

Johnsongrass, ^{14}C-mefluidide translocation 382
Johnsongrass, effects of environment on glyphosate toxicity 605
Johnsongrass, trifluralin toxicity to rhizomes 171
Joint action in herbicide mixtures, an assessment. 58

K

Karbutilate for weed control on sagebrush rangelands 27
Karbutilate, grid placement and aerial application on range vegetation 139
Karbutilate movement and persistance in rangeland soils 179

L

Lambsquarters, common, germination characteristics 255
Lambsquarters, common, triazine effects on chloroplasts 318
Light and temperature on seed germination in sunflower 277
Light interception by crops 10
Light on germination of common mullein 577
Light requirements of yellow nutsedge *(Cyperus esculentus)* and light interception by crops. 10
Linuron, uptake of and soybean root fatty acid. 647
Lolium multiflorum, phytotoxicity of glyphosate 32
Longevity of certain weed and crop seeds in fresh water.336
Lotus corniculatus, weed control with EPTC and dinoseb 497
Lumbricus terrestris, metabolism of atrazine, chloramben, and dicamba 331

M

Mechanical, cultural, and chemical control of weeds in a sorghum-soybean *(Sorghum bicolor-Glycine max)* rotation 362
Medicago sativa, control of foxtail millet 637
Medicago sativa, control of quackgrass with pronamide 193
Medicago sativa, control of yellow nutsedge. 399
Medicago sativa establishment in sod seeding, use of glyphosate . . 163
Medicago sativa, glyphosate activity on 41
Medicago sativa, metabolism of propham 296
Medicago sativa, repeated herbicide applications 151
Medicago sativa seedling establishment, dinitroaniline herbicides on.123
Medicago sativa, weed control. 37
Mefluidide, ^{14}C-, in soybeans, common cocklebur, and johnsongrass 382
Mefluidide absorption by soybean, common cockelbur, giant foxtail 434
Metabolism of diuron in sugarcane 642
Metabolism of EPTC in corn *(Zea mays)*. 157
Metabolism of fluridone in crop species 252
Metabolism of propham by wheat, sugarbeet, and alfalfa 296
Metabolites, and glyphosate, separation by thin-layer chromatography 673
Metribuzin and trifluralin with soil type on soybean growth 327
Microbial degradation of ^{14}C-glyphosate to $^{14}CO_2$ in soil 686
Milk thistle *(Silybum marianum)* seed germination 395
Millet, foxtail, control in alfalfa. 637
Mixture of phenmedipham and desmedipham, phytotoxicity on sugarbeets 1
Moisture, soil, affecting dinitroaniline persistence 465
Morningglory, competition with cotton 484
Morningglory response to bentazon. 459
Morningglory, scarlet, seed germination 261
Morphological characteristics in yellow foxtail biotype studies . . . 632
Moth *(Bactra verutana),* augmentation in suppression of purple nutsedge. 703
Movement and persistence of karbutilate in rangeland soils following application as spheres. 179
Movement of herbicides in soil 20
MSMA, arsenic levels in irrigated crops. 370
Mullein, common, influence of light and temperature on germination. 577
Multiple herbicide treatments for grassy weed control in turf. . . . 650

N

NADH or NADPH protection in chloroplast photooxidations. . . . 440
Napropamide inhibition on callus cultures and seedlings. 711
Nicotiana tabacum callus, growth inhibition by 2,6-dinitroaniline herbicides 527
Nigerian weed species: intraspecific competition 713
Nitralin, soil persistence 258
Nitrate on weed seed germination and dormancy 594
Nitrofen and oxyfluorfen selectivity between *Portulaca oleracea* and cabbage. 640
Nitrofluorfen and oxyfluorfen metabolism by fababeans and green foxtail 389
Nitrogen, barban-aqueous, for wild oat control 344
Nitrogen fertility on growth of foxtail 547
Nitrogen fixation, asymbiotic, in rhizosphere of weeds 148
Nitrogen on soybean root fatty acid composition. 647
Norflurazon and fluridone inhibition of carotenoid synthesis. . . . 198
Nucleic acid synthesis in common purslane seed 669
Nutsedge, purple, and *Bactra verutana* interactions under temperature regimes 550
Nutsedge, purple, glyphosate action in 700
Nutsedge, purple, photoperiod effects on reproductive biology of . 539

Nutsedge, purple, suppression of in early season field plots, augmenting the moth *Bactra verutana* 703
Nutsedge, purple, thiocarbamate herbicides on 127
Nutsedge seasonal development 614
Nutsedge yellow, atrazine activity on 421
Nutsedge, yellow, control in Kentucky bluegrass with bentazon, cyperquat, and perfluidone. 280
Nutsedge, yellow, control of before summer planting of alfalfa. . . 399
Nutsedge, yellow, light requirements 10

O

Oak complex control with herbicide granules 444
Oat, wild, control with barban-aqueous nitrogen 344
Oat, wild, control with difenzoquat 571
Oat, wild, germination with sodium azide 323
Oats, dipropetryn and prometryn translocation in seedlings and excised leaves 358
Oats, wild, phytotoxic response to triallate and trifluralin. 273
Onobrychis viciaefolia, effects of herbicides applied after emergence175
Operating procedures, manual of, WSSA. 403
Oryza sativa, comparative SEM study 619
Oxyfluorfen and nitrofen selectivity between *Portulaca oleracea* and cabbage. 640
Oxyfluorfen and nitrofluorfen metabolism by fababeans and green foxtail 389

P

Paraquat and glyphosate on weed seed germination 249
Pea response to acetanilide herbicides 313
Pea root rot suppression by dinitroaniline herbicides. 609
Peach seedlings tolerance to glyphosate 374
Peas, suppression of root diseases and weeds with dinitrophenol and dinitroaniline herbicides 589
Pennsylvania smartweed *(Polygonum pensylvanicum)* interference in soybeans *(Glycine max)* 556
Perfluidone control of yellow nutsedge in Kentucky bluegrass . . . 280
Persistence and movement of ten herbicides in soil. 20
Persistence of several dinitroaniline herbicides as affected by soil moisture 465
Phaseolus vulgaris germinating seeds, terbutryn and fluometuron absorption 378
Phenmedipham and desmedipham on sugarbeets 1
Phleum pratense, Canada thistle control in red clover and. 215
Photochemistry, system II in chloroplast, effects of triazine 318
Photodecomposition of eleven dinitroaniline herbicides 153
Photoperiod effects on the reproductive biology of purple nutsedge *(Cyperus rotundus)* 539
Photosynthesis-inhibiting herbicides, enhancement of chloroplast photooxidations. 440
Phytotoxic response of wild oats to triallate and trifluralin 273
Phytotoxicity and yield response of sugarbeets *(Beta vulgaris)* to a mixture of phenmedipham and desmedipham. 1
Phytotoxicity, barban, temperature effect. 132
Phytotoxicity, glyphosate, effect of diluent volume and calcium on 476
Phytotoxicity of glyphosate to Italian ryegrass *(Lolium multiflorum)* and red clover *(Trifolium pratense)*. 32
Phytotoxicity of soil-applied herbicides 566
Pisum sativum response to acetanilide herbicides 313
Pisum sativum root rot suppression by dinitroaniline herbicides . . 609
Pisum sativum, suppression of root diseases and weeds with dinitrophenol and dinitroaniline herbicides 589
Plant competition for atrazine. 94
Poa pratensis, control of yellow nutsedge with bentazon, cyperquat, and perfluidone 280
Poa pratensis, volunteer, control in seed fields of bluegrass 675
Poinsettia, wild, germination 221
Polgonum pensylvanicum interference in soybeans. 556
Portulaca oleracea, effects of diphenylether herbicides on. 585
Portulaca oleracea seed, protein and nucleic acid syntheses 669
Portulaca oleracea, selectivity of nitrofen and oxyfluorfen 640
Prometryn and dipropetryn translocation in seedlings and excised leaves of oats and corn. 358
Pronamide, control of quackgrass in alfalfa 193
Pronamide, dodder control 660
Propham metabolism in wheat, sugarbeet, alfalfa. 296
Protection of corn *(Zea mays)* from acetanilide herbicide injury with the antidote R-25788. 653
Protein and nucleic acid syntheses in dark-dormant common purslant *(Portulaca oleracea)* seed. 669
Prunus persica seedlings tolerance to glyphosate 374
Purslane, common, effects of diphenylether herbicides on. 585
Purslane seed, protein and nucleic acid syntheses 669

Q

Quackgrass *(Agropyron repens)* control in established alfalfa *(Medicago sativa)* with pronamide 193
Quackgrass control in blueberries 488
Quackgrass control in blueberries and rhododendron. 516
Quackgrass, glyphosate activity on 41
Quercus complex control with herbicide granules. 444

R

Range grasses tolerance to atrazine 480
Range vegetation, response to grid placement and aerial application of karbutilate 139
Rangeland soils, karbutilate movement and persistence 179
Reaction of sainfoin *(Onobrychis viciaefolia)* seedlings to four herbicides applied after emergence 175
Response of processing peas *(Pisum sativum)* and annual weeds to acetanilide herbicides 313
Response of range vegetation to grid placement and aerial application of karbutilate 139
Response of sugarbeets *(Beta vulgaris)* to sublethal rates of 2,4-D . 629
Responses of six morningglory *(Ipomoea)* species to bentazon . . . 459
Response of velvetleaf *(Abutilon theophrasti)* to bentazon as affected by leaf orientation 393
Response of zoysia *(Zoysia* spp.) and bermudagrass *(Cynodon dactylon)* cultivars to herbicide treatments. 493
Rice, red and commercial, comparative SEM study. 619
Rhinocyllus conicus control of *Carduus* thistle 264
Rhinocyllus conicus control of musk thistle in Missouri 188
Rhizosphere of weeds, asymbiotic nitrogen fixation 148
Rhododendron, quackgrass control. 516
Root disease suppression in peas with dinitrophenol and dinitroaniline herbicides 589
Root rot (pea) suppression by dinitroaniline herbicides 609
Root uptake, translocation and metabolism of nitrofluorfen and oxyfluorfen by fababeans *(Vicia faba)* and green foxtail *(Setaria viridis)* 389
Russian pigweed, history in North America 82
Ryegrass, Italian, phytotoxicity of glyphosate 32
R-25788 on EPTC metabolism in corn. 167
R-25788, corn protection from acetanilide herbicide injury with. . 653

S

Saccharum officinarum, diuron metabolism. 642
Sagebrush rangeland, weed control 27
Sainfoin seedlings, effects of herbicides applied after emergence . . 175
Seasonal development of yellow and purple nutsedges *(Cyperus esculentus* and *C. rotundus)* in Illinois. 614
Seed fields of bluegrass, control of volunteer bluegrass. 675
Seed germination of milk thistle 395
Seed germination of witchweed biochemical requirements 119
Seed germination, weed, glyphosate and paraquat on 249
Seed production, germination, emergence of three *Ipomoea* taxa. . 245
Seed separation with $CaCl_2$ solutions. 213
Seedling emergence, glyphosate and paraquat on 249
Seedlings, napropamide inhibition on 711
Seed study, buried, weed seed germination and viability. 230

Seed, weed, separation from soil 530
Seeds, germinating, of cotton and snapbean, terbutryn and fluometuron absorption 378
Seeds of prickly sida, enzyme activities 349
Selecting appropriate weed control systems for developing countries209
Selectivity and site of action in relation to field performance of diclofop 352
Selectivity of nitrofen and oxyfluorfen between *Portulaca oleracea* ecotypes and two cabbage (*Brassica oleracea* var. *capitata*) cultivars 640
SEM study of red rice and commercial rice 619
Separating seed by species with $CaCl_2$ solutions 213
Separation of glyphosate and possible metabolites by thin-layer chromatography 673
Setaria faberi, mefluidide absorption 434
Setaria growth, influence of nitrogen fertility 547
Setaria italica control in alfalfa 637
Setaria lutescens, biotype studies 632
Setaria viridis, nitrofluorfen and oxyfluorfen metabolism 389
Setaria viridis (varieties) growth simulation 691
SETSIM, simulation of foxtail growth 691
Shoot development of witchweed, biochemical requirements 119
Sida, prickly, seeds, enzyme activities 349
Sida spinosa seeds, enzyme activities 349
Silybum marianum seed germination 395
Simazine and atrazine on glyphosate activity 135
Simazine persistence, effect of soil pH and tillage 145
Simulation of foxtail (*Setaria viridis* var. *robusta-alba*, *Setaria viridis* var. *robusta-purpurea*) growth: The development of SETSIM . . 691
Site of action of diclofop 352
Skeletonweed, rush, bud development in excised roots 582
Smartweed interference in soybeans 556
Snapbean germinating seeds, terbutryn and fluometuron absorption 378
Sodium azide, dormant wild oat seed germination 323
Soil, atrazine adsorption on 303
Soil colloids, atrazine on 46
Soil, microbial degradation of ^{14}C-glyphosate to $^{14}CO_2$ in 686
Soil moisture affecting dinitroaniline persistence 465
Soil persistence of herbicides for corn, sorghum, and soybeans during the year of application 108
Soil persistence of isopropalin, nitralin, and trifluralin 258
Soil pH and tillage on persistence of simazine 145
Soil type on soybean growth, with interaction of metribuzin and trifluralin 327
Soils, rangeland, movement and persistence of karbutilate 179
Solidago nemoralis, effects of multiple mowing 190
Some aspects of glyphosate action in purple nutsedge (*Cyperus rotundus*) 700
Some comments on the assessment of joint action in herbicide mixtures 58
Some factors influencing atrazine activity on yellow nutsedge (*Cyperus esculentus*) 421
Some germination characteristics in common lambsquarters (*Chenopodium album*) 255
Sorghum and soybean tolerance to tetrafluron and fluometuron . . 533
Sorghum bicolor and soybean tolerance to tetrafluron and fluometuron 533
Sorghum bicolor, control of field bindweed 665
Sorghum bicolor-Glycine max rotation, weed control 362
Sorghum bicolor, herbicides persistence in soils 108
Sorghum bicolor tolerance to fluometuron residue 454
Sorghum, control of field bindweed 665
Sorghum halepense, ^{14}C-mefluidide translocation 382
Sorghum halepense, effects of environment on glyphosate toxicity 605
Sorghum halepense, trifluralin toxicity to rhizomes 171
Sorghum, herbicide persistence in soils 108
Sorghum-soybean rotation, weed control 362
Sorghum tolerance to fluometuron residue 454
Soybean (*Glycine max*) and grain sorghum (*Sorgbum bicolor*) tolerance to residues of tetrafluron and fluometuron 533
Soybean growth, interaction of metribuzin and trifluralin with soil type 327
Soybean, mefluidide absorption 434
Soybean root fatty acid composition and uptake of linuron 647
Soybean, smartweed interference 556
Soybean tolerance to fluometuron residue 454
Soybeans, ^{14}C-mefluidide translocation 382
Soybeans, dicamba injury on 471
Soybeans, effects of environment on glyphosate toxicity 605
Soybeans, herbicide persistence in soils 108
Spikerush, dwarf, germination of seed 425
Spinach chloroplast fragments, effect of hill eaction inhibitors 84
Spinacia oleracea chloroplast fragments, effect of hill reaction inhibitors 84
Starch encapsulated formulations, rate of release of EPTC and butylate from 679
Status of weed science—a world's perspective 560
Simulating germination of dormant wild oat (*Avena fatua*) seed with sodium azide 323
Striga asiatica, biochemical requirements for seed germination and shoot development 119
Sugarbeet, metabolism of propham 296
Sugarbeet response to mixture of phenmedipham and desmedipham . . 1
Sugarbeets, effect of cycloate and aldicarb on growth of 161
Sugarbeets response to sublethal rates of 2,4-D 629
Sugarcane, diuron metabolism 642
Sunflower, temperature and light on seed germination 277
Suppression of pea (*Pisum sativum*) root rot by dinitroaniline herbicides 609
Suppression of root diseases and weeds in peas (*Pisum sativum*) treated with dinitrophenol and dinitroaniline herbicides 589
Surfactant and herbicide interaction on single leaf cells 182
Survival of hydrilla (*Hydrilla verticillata*) plants and propagules after removal from the aquatic habitat 502
Sustaining member, WSSA, 1978 . . . . . 208, 311, 420, 522

T

Target tissue for napropamide inhibition: effects on green and white callus cultures and seedlings 711
Technique for separating weed seed from soil 530
Temperature and light on seed germination in sunflower 277
Temperature effect on barban phytotoxicity 132
Temperature effect on phytotoxicity of soil-applied herbicides . . . 566
Temperature on germination of common mullein 577
Temperature on scarlet morningglory seed germination 261
Terbacil phytotoxicity and quackgrass (*Agropyron repens*) control in highbush blueberries (*Vaccinium corymbosum*) 488
Terbutryn and fluometuron absorption by germinating seeds of cotton and snapbean 378
Terminology, adjuvant, subcommittee report 204
The effect of *Cyperus esculentus* tuber maturity on ^{14}C accumulation 270
The history of Rusian pigweed, *Axyris amaranthoides* (Chenopodiaceae, Atripliceae), in North America 82
The metabolism of atrazine, chloramben, and dicamba in earthworms (*Lumbricus terrestris*) from treated and untreated plots 331
Thiocarbamate herbicides on purple nutsedge 127
Thistle, Canada, control in timothy and red clover sward 215
Thistle, musk, control by *Rbinocyllus conicus* in Missouri 188
Thistle seed destruction by *Rbinocyllus conicus* 264
Tillage and soil pH on persistence of simazine 145
Timothy, Canada thistle control in red clover and 215
Tobacco callus, growth inhibition by 2,6-dinitroaniline herbicides . 527
Tolerance of soybean and sorghum to tetrafluron and fluometuron 533
Tolerance of soybeans (*Glycine max*) and grain sorghum (*Sorgbum bicolor*) to fluometuron residue 454
Toxicity of glyphosate in cotton 509
Toxicity of several dinitroaniline herbicides 72
Toxicity of soil-incorporated trifluralin to johnsongrass (*Sorgbum halepense*) rhizomes 171
Translocation of dipropetryn and prometryn in seedlings and excised leaves of oats (*Avena sativa*) and corn (*Zea mays*) 358

Translocation of glyphosate in cotton 509
Transpiration, effects of glyphosate 513
Trefoil, birdsfoot, weed control with EPTC and dinoseb. 497
Triallate and trifluralin, phytotoxic response to wild oats 273
Triallate vapor pressure and volatilization from glass surfaces. . . . 505
Triazine on chloroplasts of common lambsquarters. 318
Trifluralin and metribuzin with soil type on soybean growth 327
Trifluralin and triallate, phytotoxic response to wild oats 273
Trifluralin, soil persistence. 258
Trifluralin toxicity to johnsongrass rhizomes 171
Trifolium pratense, Canada thistle control in timothy and. 215
Trifolium pratense, phytotoxicity of glyphosate 32
Trifolium pratense, weed control with ETPC and dinoseb 497
Triticum aestivum and barley response to barban. 226
Triticum aestivum, influence of fluridone on chlorophyll content . 432
Triticum aestivum, metabolism of propham 296
Turf, grassy weed control 650

U

Uptake, translocation, and metabolism of propham by wheat (*Triticum aestivum*), sugarbeet (*Beta vulgaris*), and alfalfa (*Medicago sativa*) 296
Use of glyphosate in sod seeding alfalfa (*Medicago sativa*) establishment 163

V

Vaccinium corymbosum, quackgrass control 516
Vaccinium corymbosum, terbacil phytotoxicity and quackgrass control 488
Vapor pressure and volatilization of triallate from glass surfaces . . 505
Velvetleaf response to bentazon. 393
Verbascum thapsus, influence of light and temperature on germination 577
Vernonia baldwinii, effects of multiple mowing. 190
Vicia faba, nitrofluorfen and oxyfluorfen metabolism 389
Volatilization of triallate from glass surfaces 505
Volunteer Kentucky bluegrass (*Poa pratensis*) control in Kentucky bluegrass seed fields. 675

W

Water, fresh, longevity of weed and crop seeds 336
Waterhyacinth, arthropod-damaged, effects of fungi and bacteria on 101
Weed and crop seed longevity in fresh water. 336
Weed control during establishment of birdsfoot trefoil (*Lotus corniculatus*) and red clover (*Trifolium pratense*) with EPTC and dinoseb .497
Weed control in a sorghum-soybean rotation 362
Weed control in direct-seeded asparagus 284
Weed control in established alfalfa (*Medicago sativa*). 37
Weed control on sagebrush rangelands 27
Weed control systems for developing countries 209
Weed interference in pickling cucumbers (*Cucumis sativus*) 626
Weed rhizospheres, asymbiotic nitrogen fixation 148
Weed Science Society of America, manual of operating procedures 403
Weed science, world status. 560
Weed seed germination 4
Weed seed germination and viability in a buried seed study 230
Weed seed germination, effects of nitrate 594
Weed seed germination, glyphosate and paraquat on 249
Weed seed production and dormancy, effect of 2,4-D and dalapon. 543
Weed seed separation from soil 530
Weed suppression in peas with dinitrophenol and dinitroaniline herbicides 589
Weeds of Nigeria, intraspecific competition 713
Weeds, submersed, small plot technique for assessing control 554
Wheat and barley response to barban. 226
Wheat, influence of fluridone on chlorophyll content 432
Wheat, metabolism of propham 296
Witchweed, biochemical requirements for seed germination and shoot development. 119
Woody plant germination response to electrical treatment. 286

X

Xanthium pensylvanicum, ^{14}C-mefluidide translocation. 382
Xanthium pensylvanicum, mefluidide absorption. 434

Y

Yellow foxtail (*Setaria lutescens*) biotype studies: growth and morphological characteristics. 632
Yellow nutsedge (*Cyperus esculentus*) control in Kentucky bluegrass (*Poa pratensis*) with bentazon, cyperquat, and perfluidone . . . 280

Z

Zea mays, control of field bindweed 665
Zea mays, dipropetryn and prometryn translocation in seedlings and excised leaves. 358
Zea mays, EPTC metabolism 157
Zea mays, herbicides persistence in soils 108
Zea mays, influence of fluridone on chlorophyll content 432
Zea mays protection from acetanilide herbicide injury with antidote R-25788 653
Zea mays, R-25788 on EPTC metabolism 167
Zoysia response to herbicide treatments 493
